

ARENA GREEN Full Truck Load Shipping Details **** PLEASE READ IN FULL.**

By accepting our offer and ordering our product, you are acknowledging acceptance of these terms. GGT-Footing /ARENA GREEN is delivered in 3000 lb supersacks and delivered on a pallet weighing 3050 lbs in total.

As you can see, these skids can be very large 40" x 40" x 70" It is important that you fully understand what to expect at delivery and make arrangements for accepting your order. This ensures a smooth and successful process. **If your order is more than 24,000 lbs. of footing the transport will NOT include a Lift Gate (LG).** Orders of this size or larger require a 48'-53' flatbed (Fig. 3) or dry van/box trailer (Fig. 4). You will need to make sure you have a forklift or a tractor with forks (Fig. 5 & 6) to get the pallets from the trailer to the ground. Due to liability reasons, the truck driver is only required to transport the product from our facility to yours and is not expected to unload. This means that you will need to have someone on site and prepared with the necessary equipment to unload it. **Make sure your equipment is rated to lift at least 3000 pounds.** For dry van/box trailer deliveries, you will also need to have a pallet jack (Fig. 7) to transport the pallets from within the trailer to the edge. Keep in mind palletjacks will not work well on grass or heavy gravel, only on smooth surfaces.

Fig . 7. Pallet Jack

Once your order arrives, please make note and take photographs if there is any damage during transport and contact your salesperson immediately. Note any damages on the carriers POD (Proof of Delivery). This insures we can file a damage claim, if necessary. A damage claim MUST be filed within 5 days of delivery.

If you are concerned about your ability to accept this type of delivery, please give us a call. We will work together to determine a solution and make sure you are properly prepared. We look forward to working with you!
